The Chaplain of the Hospital is Rector of Grace Church. Pews are provided in that Church for all the nurses of the Training School.

---

# In Memoriam.

KATHERINE LILLA LETT.

*Entered into rest Nov. 3, 1883.*

---

## EXTRACT FROM MINUTES OF THE BOARD OF TRUSTEES.

MISS KATHERINE LILLA LETT.

The trustees of St. Luke's Free Hospital, Chicago, Ill., desire to record their sense of the great loss sustained by the institution in the death of Miss Katherine Lilla Lett, for the last five years superintendent of St. Luke's Training School for Nurses.

Miss Lett's thorough work as head of the nursing in the hospital has always spoken for itself. Her influence over those under her charge was of the highest and best character. She not only aimed to make her pupils good nurses, but refined Christian women as well. Her own character ever told as an example and an influence to that end.

A devout daughter of the Church, she has passed away, leaving behind her not only her memory, but her life-work, in the hearts and lives of others.

The institution she so faithfully served offers this tribute to her memory, and has made the same a part of its records.

# THIRTIETH. ANNUAL REPORT OF THE TRUSTEES,

From October 1, 1892, to October 1, 1893.

---

The Trustees submit, herewith, the various reports showing the operations of the Hospital during the Hospital year just closed. The amount of work done has been unprecedentedly large. The great influx of strangers caused by the World's Fair has taxed the Hospital and its officers to the utmost. Every ward and room and bed has been almost continuously full. The number of in-patients treated was 1862, of out-patients (dispensary), 5531, while the maintenance expenses, including interest and insurance, have been some \$70,000. Our income has kept pace with it so that for the first time in many years, we close the year without a deficit.

We have reduced our floating debt, a large part of which is on building account, some \$8,000, during the past year but it is still about \$40,000. One of the greatest benefactions any one could do the Hospital would be to pay this debt. Once on a cash basis we could largely reduce our cost of maintenance. As compared with Eastern Hospitals our invested endowment funds are small, the income therefrom being sufficient to provide for but a small portion of our annual expenses, and far less than the cost of supporting our free patients. This, however, must be a matter of growth. During the year we have received a bequest of \$4,000 from the estate of Peter Schoenhofen, deceased, and also \$4,000 from St. Andrew's Brotherhood, for the endowment of beds.

The support of new beds has been undertaken during the year by the following persons: Mrs. H. O. Stone (two beds), Mrs. Lambert Tree, Mr. C. W. Brega, the estate of Chauncey B. Blair and R. L. Jones.

The Trustees feel it to be their duty to call attention to the fact that subscriptions and donations to the Hospital from churches and individuals have been steadily decreasing for some years. Under these circumstances the only possible way to prevent a deficit is to increase the proportion of pay patients. Each pay patient pays in whole or part for his or herself, but back of every free patient must be enough benevolent offerings or income thereof to pay the cost of maintenance.

If those offerings decrease, the number of free patients must also decrease. We are thankful to say that during the past year we have been able, by strenuous exertion, to slightly increase the number of Hospital days of free patients. What we can do if the benevolence of churches and individuals continues to decrease, is a matter for serious reflection. The Trustees are glad to be able to say that, at the recent Hospital Congress St. Luke's received the highest commendation, and our system under which the absolutely destitute are taken in free and others allowed to pay, according to their means (thus avoiding any pauperization), called forth the unstinted praise of eminent Hospital experts then present. One such expert remarked: "I have personally verified the system in vogue at St. Luke's and I declare it to be one of the best systems that a Hospital can be conducted on and I believe it to be the only safe system and satisfactory way in which you can conduct a Hospital. St. Luke's Hospital, situated in one of the poorest districts of the city is doing a glorious work in the best possible way and the Church people of Chicago are every year turning their backs more and more upon it." May we not commend his words to all who read this report.

The Hospital is greatly cramped for room, especially in regard to nurses' quarters and accommodation for domestics.

We hope that at some day not far distant some friend of the Hospital may be found to give the institution what it sorely needs—a separate building for its nurses; such a building would

be an institution in itself and form the most beautiful of memorials.

The Trustees desire to render the thanks of the Institution to the Medical Board and the Dispensary Board for faithful services during the year. They would also thank the officers and employes of the Hospital and Training School for their services.

The Trustees also desire to thank the ladies of the Auxiliary Board for their devotion to the interests of the Hospital.

The various reports are herewith submitted showing the operation of the Hospital in detail.

Rendering thanks to Almighty God for His mercies to us, and commending the Hospital to the public, we are,

Faithfully yours,

CLINTON LOCKE.

## REPORT OF THE MEDICAL BOARD.

CHICAGO, October 15, 1893.

*To the President of the Board of Trustees, St. Luke's Hospital.*

DEAR SIR:

In reviewing the work of the Hospital for the past year from the standpoint of the Medical Board it is interesting to make comparisons with the work of the previous year and to consider such new features as have arisen, for only by comparisons do we readily measure our growth, and only by a thoughtful consideration of this change may we wisely plan for the future.

From the statistical reports hereto appended it will be seen that in all the departments of the Hospital 1,862 patients were treated during the year, 358 more than were cared for during the previous twelve months. Of these 1,253 were cured; 225 were improved, 98 were not improved, 141 died.

In the Medical Ward 484 cases received treatment, as against 443 cases last year. Of these 296 were males, and 188 were females; 289 recovered, 87 were improved, 27 were not improved. 34 still remain in the hospital, and 47 died—a mortality of 9.7 per cent. of the cases treated.

In the Surgical Wards 708 cases received treatment, as against 571 cases last year. Of these 608 were males, and 100 were females; 438 recovered, 98 were improved; 34 were not improved, 59 still remain in the Hospital, and 79 died—a mortality of  $11\frac{1}{10}$  per cent. of the cases treated.

In the Gynæcological Wards 341 cases were treated as against 166 cases last year. Of these 250 recovered, 24 were improved, 35 were not improved, 22 still remain in the Hospital, and 9 died—a mortality of 2.6 per cent. of the cases treated.

In the Ophthalmological Wards 22 cases received treatment, as against 26 cases last year. Of these 13 were males, and 9 were females; 18 recovered, 3 were improved, 1 still remains in the Hospital.

In the Otological Wards 8 received treatment, as against 5 cases last year. Of these 5 were males, and 3 were females; 3 recovered, 4 were improved, and 1 died—a mortality of  $12\frac{1}{2}$  per cent. of the cases treated.

In the Orthopedic Wards, for the past 7 months, 32 cases received treatment. Of these 17 were males, 15 were females, 13 recovered, 9 were improved, 2 were not improved, 7 still remain at the Hospital, and 1 died—a mortality of  $3\frac{1}{10}$  per cent. of the cases treated.

During the year 401 surgical operations have been performed in the various departments.

In the dispensary of the Hospital the following cases have been treated:

Surgical.....	2,141
Medical.....	1,629
Gynæcological.....	1,209
Otological.....	} 552
Ophthalmological.....	
Total .....	5,531

A gain of 1,122 over the year ending October 1, 1892, and of 1,816 over the year ending October 1, 1891.

During the year a new Service, that of Orthopedic Surgery, has been established and to it and its necessities the Medical Board wish to call especial attention. With the single exception of St. Luke's Hospital, in New York, this is, in so far as we know, the only general hospital in the country that has an especial service in Orthopedic Surgery; and in Chicago the only hospital, general or special, where without restriction a crippled child may be placed under the treatment of surgeons specially trained in this branch of surgery. In New York City, in the general hospital already mentioned and in the two special hospitals, there are treated each year about 400 in-patients and about 6,000 out-patients, That relatively as large a number

require treatment in Chicago no observing person can doubt. It is more than possible that the Trustees in establishing this department did not fully realize the possible magnitude of this work.

Orthopedic Surgery, as it is understood in this country, is that branch of general surgery which undertakes the treatment and rectification of chronic and progressive deformities, and the treatment of certain diseases which lead up to chronic deformities, such as the tubercular diseases of the joints. The more frequent diseases which come to this department are: hunch-back, hip diseases, white swelling of the knee, and the same disease at the ankle, shoulder, elbow and wrist, lateral curvature of the spine, wry-neck, club-feet, bow-legs, knock-knee and infantile paralysis.

Lack of knowledge and interest in this class of cases by the general practitioner of medicine and surgery, together with the long duration of these diseases and the infinite patience, and perseverance required in their treatment, has led up to an undefined conviction in the minds of the people that most of these cases are incurable and many of them not worthy of any serious attempt at treatment.

Let me then in a few words point out what results may be expected in each class of cases, provided sufficient time and opportunity be given:

Hunch-back may be diagnosticated before deformity has occurred, in which case a cure may be obtained without deformity or stiffness. When the patient comes already burdened with deformity the increase of this deformity can always be prevented, in some favorable cases it can be diminished or effaced, and in all a cure obtained with the minimum deformity and stiffness. Cases of hip-disease recover without other deformity than such shortening as is due to actual bone destruction and lack of growth; nearly all may expect to have some motion at the joint and many are cured with motion to the normal degree. With diseases at the knee, ankle, shoulder, elbow and wrist the results are better than at the hip. All this is now possible without subjecting the little sufferer to operative procedures except in rare instances. All cases of lateral curvature and wry-neck can be

greatly improved, and in many the deformity can be reduced so far that it is no longer apparent to the casual observer. Club-feet, bow-legs and knock-knees, can be perfectly rectified. In cases of infantile paralysis, deformities can be corrected and prevented, something can be gained in strength, and very much in usefulness.

To accomplish all this every patient requires some specially devised splint or brace, the cost of which must be borne by some one. This class of patients comes mostly from the poor, and many can pay little or nothing toward the cost of the apparatus. The Trustees of the Hospital have felt themselves unable to make provision for this extra expenditure and as a result this department has been seriously crippled.

JOHN RIDLON.

## GENERAL RESUME.

CHICAGO, October 15, 1893.

ARTHUR RYERSON, Esq.,  
*President St. Luke's Hospital,*  
 CHICAGO, ILL.

DEAR SIR: The following statement shows the work of the Medical Board for the year ending October 1, 1893.

The number of patients remaining October 1, 1892.....	114
The number of patients admitted during year.....	1748
Total.....	1862
Total number discharged:	
Cured.....	1128
Improved.....	323
Unchanged.....	114
Died.....	152
Total.....	1717
Remaining October 1, 1893.....	145

### DISPENSARY.

The following were the number of cases treated in the Dispensary free of charge to applicant:

Surgical.....	2141
Medical.....	1629
Gynæcological.....	1209
Eye and Ear.....	552
Total.....	5531

### RESUME.

Patients treated in the Hospital.....	1862
Patients treated in the Dispensary.....	5531
Total number of patients treated.....	7393
Total number treated last year.....	5913

Respectfully submitted,  
 ROBERT TILLEY,  
*Secretary Medical Board.*

## CHAPLAIN'S REPORT.

---

I have been Chaplain of St. Luke's Hospital for but five weeks, and my report must be brief.

I have followed the order of services which the wisdom and experience of my predecessors established, and of which, in every particular, I approve.

The work begins with an early celebration of the Holy Communion, attended chiefly by the day nurses. At a later hour a shortened form of Daily Morning Prayer is read in the chapel to convalescents, nurses off duty, and members of the household. In the evening the same class return to Evening Prayer and sermon.

Every Thursday and Saints-Day there is also a celebration of the Holy Communion. With the above exceptions, the regular routine is two short forms of Daily Morning Prayer in the chapel with the day and night nurses.

At 4:30 P. M. prayers are said with the children in the Florence ward, and from 5:30 P. M. to 6 P. M. a brief Evening Prayer is read in each of the public wards. At other hours visits are made to private wards, when the physicians and nurses approve, and the patient invites the Chaplain to come.

The foundation of the Christian work in St. Luke's Hospital has been laid by persons having the spirit of wisdom and understanding. The Chaplain is only part of the plan. Without the aid of the nurses of the Blue Cross his right arm would be paralyzed.

I desire to receive picture cards representing sacred scenes and subjects, as well as the better class of illustrated papers and unsoiled copies of illustrated magazines. The children are happy in the expectation of receiving new toys and playthings, which I have promised to ask to be sent them.

EDWARD WARREN.

November 15, 1893.

## SUPERINTENDENT'S REPORT.

TO ARTHUR RYERSON, ESQ.,  
*President St. Luke's Hospital,*  
 CHICAGO, ILL.

DEAR SIR:—I herewith submit report and tabular statements for the year ending October 1, 1893:

The number of patients remaining October 1, 1892, was..... 114

The number of patients admitted during the year:

Males.....907

Females... ..737

Babes born.....104—1,748

Total number of patients treated during the year.....1,862

Discharged:

Cured, 61%.. ..1,128

Improved, 17%..... 323

Unchanged, 6%..... 114

Died, 8%..... 152—1,717

Remaining October 1, 1893, 8%..... 145

Treated in the wards.....1,862

Treated in the dispensary .....5,531

Total treated in the Hospital..... 7,393

The number of free patients admitted was..... 689, 39%

The number of pay and part pay was.....1,059, 61%

Total admitted.....1,748

The number of hospital days devoted to free patients was.....19,818, 45

The number of hospital days devoted to pay and part pay\* was.... 24,115, 55%

Total number of hospital days.....43,933

---

\* A large number of *part pay* patients pay from \$2.00 per week up, according to their means.

The least number admitted in any month was 110, in October; the greatest number, 184, in July.

The least number of hospital days in any month was in February, 3,091, an average of 110 patients; the greatest number 4,223, in May, a daily average of 136.

The average number of days spent in hospital was, for free patients, 29.6; for pay patients, 22.8; general average, 25.2, which is a very little longer than the average of last year.

The longer stay in hospital of the free patients is readily understood if one remembers that the pay patients are anxious to return home as soon as possible and often leave before they are really well enough to be discharged, while many of the others have no proper accommodations at home and would like to stay in hospital until they are able to go back to work.

It is to be hoped that the friends of St. Luke's will continue and increase their contributions during the coming year, for the Hospital should spend upon free work only what its friends and supporters contribute for that work. No matter how great the good to be accomplished, the Hospital ought not to be expected to go in debt for the sake of doing it.

But about half of the expenses of the hospital are not dependent upon the number of patients cared for. Such items as wages, light, fuel and repairs must be looked for whether the wards are full, or, only, say three-fourths full—a *part* also of the *other* expenses of the house are independent of the number of patients in the wards, and so it follows, that a very little more money given us will do a great deal of good.

To accept a free patient when the house is crowded full means giving up the \$10.50 per week which another patient might pay, but when the service is light the admission of a free patient means only an additional expense of the bare cost of his food and medicine at wholesale, say \$4 per week. Shall we not have enough more money this coming year so that we may never turn away a proper case for hospital treatment while there is a bed vacant in the house.

Another plea I would make on behalf of the friendless and the strangers who die in the hospital. The purchase of a suit-

able plot of ground for their burial, might well be made as a memorial or as a gift and the endowment of a fund for meeting the expense of burial, would complete the removal of what seems almost a blot upon our name, the fact that we give up the bodies of the poor and friendless to the County authorities to care for as they may.

Yours very respectfully,

J. W. VAN INGEN,

November 1, 1893.

*Superintendent.*

# ST. LUKE'S HOSPITAL.

## VOUCHER LIST, OCTOBER 1, 1892, TO OCTOBER 1, 1893.

## STATEMENT OF Endowments and Invested Funds.

### ENDOWMENTS.

“A.” Invested in the Hospital property itself, not income—producing.

Chicago Relief and Aid Society .....	\$ 28,000
N. K. Fairbank.....	20,000
D. Tolman Wheeler .....	25,000
Estate of William B. Ogden.....	25,000
P. D. Armour (addition to bed endowment).....	4,000
C. R. Cummings .....	5,000
John W. Doane .....	5,000
George A. Armour .....	5,000
Marshall Field.....	5,000
Martin Ryerson.....	5,000
Edwin H. Sheldon (addition to bed endowment).....	5,000
Samuel Johnston.....	50,000
Solomon A. Smith.....	12,500
Total .....	<u>\$194,500</u>

“B.”

### ENDOWED BEDS AND ROOMS.

THE CHURCHMAN COT FOR CHILDREN.—The endowment for this was collected by the <i>Churchman</i> newspaper in New York.....	\$4,000
THE MINNIE MEMORIAL FOR CHILDREN.—In the memory of the first child who died in the Hospital, Minnie Blickion. The money was collected by Mrs. A. Douthitt.....	4,000
THE BED FOR INCURABLES.—This endowment was collected by Miss Olive Lay.....	3,000
THE SEWING WOMAN'S BED.—The money for this was collected by Mrs. N. K. Fairbank.....	3,500
THE COT FOR CRIPPLED CHILDREN.—This endowment was collected by Mrs. Abram Williams.....	4,000
THE BALDWIN BED.—This was endowed by Mrs. M. C. Baldwin, of Lowell, Mass., in memory of her husband, and was the first bed endowed in St. Luke's.....	4,000
THE ILLINOIS CENTRAL BED.—This bed was endowed by the Illinois Central Railroad Company, for the benefit of its workingmen, by the payment of.....	6,000

THE MARGARET STEARNS HARRISON BED FOR INCURABLES.—Endowed by Hon. Carter Harrison in memory of his wife, who died April 30, 1887.....	4,000
THE PECK BEDS.—These are three beds for women. Endowed by the payment of \$15,000, left for the purpose by Mrs. Clarissa C. Peck, of Chicago, who died December 22, 1884.....	15,000
THE HEYDOCK BED.—In memory of Dr. M. O. Heydock, for many years a faithful physician in the Hospital, who died April 17, 1881. Endowed by a legacy from Mrs. Helen H. De Koven, who died March 24, 1886.....	5,000
THE ARMOUR BED.—Endowed by Mr. and Mrs. P. D. Armour, in 1888, by a payment of.....	5,000
THE HAMILTON BED.—Endowed by Mr. I. K. Hamilton, in memory of his wife, October 11, 1888, by the payment of...	5,000
THE LARNED BED.—Endowed by family of E. C. Larned, January, 1886.....	4,000
THE CAROLINE O. BLAIR BED.—Endowed by C. B. Blair, March 1, 1889, by payment of.....	5,000
THE JOHNSON BED.—Endowed by the Johnson family, by the payment of.....	5,000
THE HELEN H. DE KOVEN BED.—Endowed by the payment of..	5,000
THE HANKS BED.—Endowed by C. B. S. Hanks, by the payment of.....	5,000
THE WILLIAM C. SEIPP BED.—Endowed by the Seipp family, by payment of.....	13,000
THE SAMUEL JOHNSTON BED.—Endowed by the payment of.....	5,000
THE EDWARD H. SHELDON BED.—Endowed by payment of.....	5,000
THE LAWRENCE LAFLIN BED.—Endowed by Mr. George H. Laflin, by the payment of.....	5,000
THE TRINITY CHURCH BED.—Endowed by the payment of.....	4,000
THE GEORGE PLANT LOCKE BED FOR NEWS BOYS.—Endowed by the payment of.....	4,000
THE MARGARET K. FISHER BED.—Endowed by payment of.....	5,000
THE DORA KEEP MEMORIAL ROOM.—Endowed by the payment of.....	5,000
THE ESTHER MARBLE FREER BED.—Endowed by the payment of.....	5,000
THE JOHN CRERAR ROOM, THREE BEDS.—Endowed by payment of.....	25,000
THE PETER SCHOENHOFEN BED.—Endowed by the payment of..	4,000
THE ST. ANDREWS BROTHERHOOD BED.—Endowed by the payment of.....	4,000
Total invested endowment funds.....	\$166,500

The above invested in improved unincumbered real estate in the city of Chicago yielding during the year closing October 1, 1893, a net rental of \$16,920.22.

The present minimum cost of the endowment of a bed is \$5,000, of the endowment of a room is \$10,000.

# DONATIONS TO ST. LUKE'S HOSPITAL

FROM OCTOBER 1, 1892, TO OCTOBER 1, 1893.

---

The Hospital again offers its heartiest thanks for the many kind gifts received during the past year. For all that has been done for the Hospital—for the money, the food, clothing, flowers, for the great gifts and the small, we thank you—and hope for the privilege of thanking you for more and more as the years go by; for in two ways the Hospital needs these gifts and needs them more and more as it grows larger. It needs all possible material help to enable it to minister in Christ's name to His poor and suffering ones. It needs still more the personal interest and friendly sympathy which prompts these benefactions, for these alone give life to the Hospital work and defend it against the danger of institutionalism. It is well for the workers to remember this; it is to be hoped that the friends of St. Luke's will never forget it—the life and soul of any work of this kind depends upon its being personal. The “cup of cold water” must ever be given in such wise that all concerned, the patient, the worker and the benefactor alike, shall know that it is given in Christ's name. And so again we thank you for your gifts, your interest and your prayers, and may God's promise be fulfilled, as it is written “Blessed be the man that provideth for the sick and needy; the Lord shall deliver him in the time of trouble.”

OCTOBER, 1892.

Mrs. F. G. Morse, 16 magazines and picture cards; Mrs. Geo. L. Otis, 1 basket grapes; Chas. B. Allen, lot of papers; A. S. Trude, under-shirt, wrapper, 4 pairs pants, piece braid, piece tape, 4 pairs dress protectors, bundle of linen, bundle of pieces; Unknown, lot of books; Mrs. Geo. L. Otis, 2 baskets grapes; Mrs. D. R. Brower, 2 jars pickles, 3

jars jelly; Browning, King & Co., a lot of second hand clothing; Mrs. I. I. Sharin, \$5 cash; Mrs. A. S. Munger, 3 magazines and lot of papers; Unknown, 1 sheet, 3 pillow-slips and 2 towels; Second Presbyterian Church, lot of magazines; Christ Church, 3 cans fruit, 8 glasses jelly, 1 basket flowers, 2 barrels vegetables; Mrs. W. G. Hibbard, 1 box grapes; Mrs. O. W. Barrett, 35 towels for training school; Miss Kimball 3 coats, 2 vests, 1 pair pants, 1 cap for boys; Chicago Club, 2 barrels and 1 basket dishes; Dr. Barnes, lot of magazines.

#### NOVEMBER, 1892.

Mrs. William R. Sterling, 1 cap, bundle of linen, 4 under-vests, 7 pairs stockings, pair socks, 2 collars, 14 baby slips; Mrs. T. J. Watkins, 4 pictures, 1 large rug; Bruce Borland, 17 books, 15 magazines; Miss M. Waite, bundle old linen, under-vest; Mrs. George L. Otis, basket of grapes; Miss Alice Fay, pair rubber shoes, 3 pairs shoes, 8 baby bibs, 1 baby cloak, 5 baby caps, 2 pairs mittens, 2 baby dresses, 2 baby flannel night-gowns, 1 flannel shawl, 2 baby slips, 2 baby skirts, 1 baby sack, Mrs. H. V. Kay, 2 wrappers, duster, cap, 2 under-vests, pillow-case, old linen, smoking jacket, 2 skirts, 5 shirts, pair drawers, jacket; Unknown, 14 shirts, 8 pairs stockings, 2 pairs corsets, 2 baby dresses, 2 shirt waists, 1 package books, pillow case, 2 bonnets, duster cloak, 9 pairs drawers, 1 fan, 2 skirts, 1 sack, 1 dress waist, 1 piece dress goods, 1 scissor case, 1 perfume bag, 1 under-vest, 1 cover, 2 napkin rings, 1 bracket; 3 corset covers, 12 gloves, 2 bags; Mrs. W.
